DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claim 11 is rejected under 35 U.S.C. 102(e) as being anticipated by Jang et al. [U.S. Pat. 6,417,055] newly cited.

Jang et al. (figs. 3A-3F, cols. 3-4) discloses a semiconductor device comprising:

a field effect transistor having a gate electrode (8a) formed on a first section of a semiconductor substrate (1) (fig. 3D);

a ridge structure (12) made of insulating film material formed on an upper surface of the gate electrode (8a), the ridge structure being aligned and extending along side edges of the gate electrode without overlapping a center line of the gate electrode (fig. 3D).

Response to Arguments

3. Applicant's arguments with respect to claim 11 have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

4. Claims 4-6 and 9-10 are allowed.
